

About the Initiative

Climate Action 100+ is a five-year initiative led by investors to engage systemically important greenhouse gas emitters and other companies across the global economy that have significant opportunities to drive the clean energy transition and help achieve the goals of the Paris Agreement. Investors are calling on companies to improve governance on climate change, curb emissions and strengthen climate-related financial disclosures.

Investor Mobilisation

Today, **289 investors** from across **29 countries**, who together manage more than USD **\$30 trillion in assets under management**, have signed on to the initiative.

2018 Annual General Meetings in April and May where investors from Asia, Australia, Europe or North America made statements to the boards' of focus companies, inviting those companies to enter into dialogue and set expectations.
