We endorse the [IGCC Mission](#), which is to deliver real and accelerated progress on climate change by connecting, collaborating, and advocating on behalf of investors to responsibly manage climate risks and opportunities, and drive sustainable returns for investors and the beneficiaries they represent.

As set out in the [Member Statement of Commitment](#), we will contribute to the Mission of IGCC by:

- Participating in and supporting IGCC’s activities by attending meetings, participating in the annual State of Net Zero Survey, [working groups](#) and initiatives
- Demonstrating progress in:
 - Incorporating the risks and opportunities associated with climate change into investment decisions or investment advice as appropriate, and into business operations
 - Assisting in raising awareness of the risks and opportunities associated with climate change in the investment industry, corporate, government or community sectors
 - Encouraging other organisations within the broader investment industry to join the IGCC and support the IGCC activities

There are a range of opportunities for IGCC members to support the IGCC Missions and get involved in our work. Please select the top three initiatives that your organisation intends to undertake in the next 12 months:
